

### New Experiments With Corn.

Experiment with corn at the Nebraska Experiment Station have just been compiled and published as Bulletin 91. Tests of a number of varieties of corn in different parts of the state have continued. Something over one hundred farmers are engaged in these tests. It was found that no one variety of corn is equally well adapted to all parts of the state. By dividing the state into six sections, it was shown that certain varieties yielded best in certain sections and other varieties in other sections. The yields obtained by each experiment are stated in the bulletin.

Corn was planted sufficiently thick so that it could be thinned out to from one to five stalks per hill, 44x44 inches apart. On good soil with liberal moisture supply, three stalks per hill have the largest yield of grain, although the ears were smaller than where the planting was thinner. Experiments indicate that toward the western edge of the corn belt two stalks per hill are better than a larger number.

The plants of corn having the thickest stand had the largest proportion of barren stalks.

On the other hand, suckers are more abundant in the thin stand of corn. These suckers serve a useful purpose in producing ears when the stand of corn is thinner than the soil and moisture can easily support. In regions of sufficient rainfall it would not seem advisable to remove the tillers in hope of improving the yield.

Experiments with seed corn from different states lead to the conclusion that seed corn should be raised as near as possible to the locality in which it is to be planted.

Seed corn placed in a dry seed room in the fall gave 20 per cent better stand in the field than seed corn from the same field that was left in the crib over winter. T. L. Lyon, Nebraska Experiment Station.

### Longtown News.

The work of our school was hindered last week by the disagreeable weather. Mr. G. G. Sale took advantage of this and spent the time at his home in Chesterfield.

Miss Estelle Harrison, who has been visiting in Williston, Fla., and Savannah, Ga., came home last week.

Mr. J. P. Jones spent several days last week in Winnsboro.

Miss Pauline Jones is now enjoying a visit in Chester.

Miss Nora Curlee spent a few days last week with relatives in Columbia.

Miss Irene Jones has just returned home after a pleasant stay with friends at Liberty Hill.

Mrs. Jennie Bankhead has returned home from Winnsboro after being with relatives there for a short time.

The most interesting topic of conversation in Longtown is the prospects of a railroad through this section of county in the near future.

Longtown Graded School.

### Pirating Foley's Honey and Tar.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. Sold by McMaster Co.

### Reciprocity.

An Irishman was sitting in the depot smoking the other day when a woman came and sitting down, remarked: "Sir, if you were a gentleman you wouldn't smoke here." "Mum," he said, "if yez wuz a leddy, y'd sit farther away." Pretty soon the woman burst out: "If you were my husband I'd give you poison." "Well, mum," returned the Irishman, as he puffed away at his pipe, "if yez wuz me woife, I'd take it." Business Magazine.

Perfection can only be attained in the physical by allowing Nature to appropriate and not dissipate her own resources. Carburants, gripes, weakness, indigestion, etc., are cured by Little Early Bitters which expel all putrid matter and bile thus allowing the liver to assume normal activity. Good for the complexion. Sold by all dealers.

### Begin Now.

This is St. Valentine's day, the great day of the year with all lovers, who will be sending their sweet reminders of this glad time. It is also a great day for gardeners, for it has come to be a well established belief that the time for starting a garden is Feb. 14. The real starting ought to have been earlier than this,—that is, the ground ought already to be prepared and ready for the depositing of the seed in the ground. It is true, however, that there has been little time so far for the getting the ground ready for planting and this makes it all the more necessary that no time be lost now in getting everything in good shape. The ground is still pretty wet and it will be several days before there can be much ploughing and there ought not to be any at all till the ground is good dry. But as soon as it is then gardening should begin in dead earnest.

It is now time for the most of the early vegetables to be planted and most of them should go in the ground right away. At any rate do not neglect the garden. It is one of the most important adjuncts of every well regulated home. It is a necessary part of the hog and hominy schedule, the raising of all supplies at home, that makes so much for prosperity and happiness. Determine to have the best garden this year that you have ever had and do not neglect it for any other work that may seem more important. There is nothing else that will pay better for the same amount of time and attention.

### Luckiest Man in Arkansas.

"I'm the luckiest man in Arkansas," writes H. L. Stanley, of Bruno, "since the restoration of my wife's health after five years of continuous coughing and bleeding from the lungs; and I owe my good fortune to the world's greatest medicine, Dr. King's New Discovery for Consumption, which I know from experience will cure consumption if taken in time. My wife improved with first bottle and twelve bottles completed the cure." Cures the worst coughs or colds or money refunded. At McMaster Co.'s, and Jno. H. McMaster & Co., druggists. 50 cents and \$1.00. Trial bottle free.

### Jenkinsville Jottings.

Dr. and Mrs. McBryde will move into the house which has been made vacant by Mrs. McBryde's mother and family. We are sure that this move will be quite an addition to the community. They have been residing in Chattanooga, Tenn., for the past year.

Mr. C. B. Chappell of Branchville recently visited this community.

Rev. W. W. Williams, the pastor at Shiloh, has not been able to fill his appointments for some time. It is hoped that he will soon be better.

Mrs. J. D. Mayer and brother-in-law, Mr. Frank Mayer, recently visited Monticello.

The "small" school seems to be progressing nicely under the skillful teaching of Miss Mayde Chappell.

Feb. 12, 1906.

### Men Past Sixty in Danger.

More than half mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate gland. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign and has cured many old men of this disease. Mr. Rodney Burnett, Rock Port, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years although I am now 91 years old." Sold by McMaster Co.

### Behind Time.

"Say!" demanded the ugly individual, suddenly appearing from a dark alley, "what time is it?"

"You're just about two minutes late," replied the Chicagoan. "That other gentleman you see running away has my watch."—Catholic Standard and Times.

### Lame Back.

This ailment is usually caused by rheumatism of the muscles and may be cured by applying Chamberlain's Pain Balm two or three times a day and rubbing the parts vigorously at each application. If this does not afford relief, bind on a piece of flannel slightly dampened with Pain Balm, and a quick relief is almost sure to follow. For sale by Obeur Drug Co., and all medicine dealers.

Don't forget that your actions measured as critically all through life as is the borrowed butter you return to a neighbor.

### Charles Alexander Dickey.

Mr. Charles A. Dickey, my kind friend, neighbor and comrade-in-arms, died at his home in Winnsboro January 25th. He was about 65 years old. He came to this country from Ireland when a youth and settled in Fairfield county, where he lived all his life with the exception of his four years of the civil war. His occupation was that of a boot and shoemaker, which he followed up to a few months of his death. At the beginning of the civil war he volunteered his services in Co. B, 7th S. C. Battalion, Capt. Jas. H. Rion. In that gallant command he remained throughout that terrible struggle of four years that tried men's souls. He was an humble, quiet and obedient soldier, always willing and ready, and did his duty well. He fought many hard battles, but never received a scratch.

The bereaved widow, daughters and sons have the sympathy of many old comrades and friends.

Comrade Dickey has gone, him no more we'll see, Till we too will pass over that silvery stream To be with Beauregard, Jackson and Lee.

### A Comrade.

### Common Colds are the Cause of Many Serious Diseases.

Physicians who have gained a national reputation as analysts of the cause of various diseases, claim that if catching cold could be avoided a long list of dangerous ailments would never be heard of. Every one knows that pneumonia and consumption originate from a cold, and chronic catarrh, bronchitis, and all throat and lung trouble are aggravated and rendered more serious by each fresh attack. Do not risk your life or take chances when you have a cold. Chamberlain's Cough Remedy will cure it before these diseases develop. This remedy contains no opium, morphine or other harmful drug and has thirty years of reputation back of it, gained by its cures under every condition. For sale by Obeur Drug Co., and all medicine dealers.

### Labor Savers.

Messrs W. O. McKeown & Sons of Corawell begin their advertising in the News and Herald again this week, and this time they are calling attention to their gasoline engines. In this connection we take pleasure in saying that when the question of getting an engine for our machinery here in the office first came up, we went at once to see these well known machinists and placed an order with them for a two horse Olds gasoline engine, which we were fortunate in getting installed in a very few days and which has been giving the very best satisfaction. The increased price of labor in every line of work makes it well worth the while to look into these labor savers as a partial solution to this vexing labor problem. Just drop them a card and they will furnish you with all the desired information.

### A Fearful Fate.

It is a fearful fate to have to endure the terrible torture of Piles. "I can truthfully say," writes Harry Colson, of Masonville, Ia., "that for Blind, Bleeding, Itching and Protruding Piles, Bucklen's Arnica Salve is the best cure made." Also best for cuts, burns and injuries. 25c at McMaster Co., Obeur Drug Co. and John H. McMaster & Co., druggists.

### KEEP 'EM GOING.

And Let Some Of Them Come This Way

The way a single dollar can discharge obligations, if it kept on the move, is something wonderful. If every man in Fairfield County made up his mind that he would settle up every dollar of indebtedness he could afford to pay, the people would think Klondyke had been discovered somewhere in this section. A Georgia exchange in speaking of the subject, says: "Those who wish good business condition should keep on the move whatever money reaches their hands. If more people kept this in mind and so soon as they receive a dollar paid up their small debts, or big debts if they could, that money would in all likelihood be quickly spent by the man who received it and thus help to keep the wheels of trade moving and business lively. The man who promptly pays his bills is putting money into circulation that will indirectly help the neighbor that owes him to pay the bill to him."

Indigestion is easily overcome by the use of Kodol Dyspepsia, because this remedy digests what you eat and gives the stomach a rest—allows it to recuperate and grow strong again. Kodol relieves Indigestion, Belching of Gas, Sour Stomach, Heart-Burn, etc., and enables the digestive organs to transform all foods into the kind of rich red blood that makes health and strength. Sold by all dealers.

### A Subscription Statement.

Subscription statements have been mailed out in the past few days to subscribers in arrears with the News and Herald. These should have been mailed earlier, but we held back so as to give still others the opportunity to come forward and adjust this matter before a statement was sent out. In this connection it is very gratifying to state that quite a good number have come up within the past few days and looked after their dues to the county paper. As next week will be court week, those who have not paid for the want of a convenient way of sending in their dues, will have a good opportunity of sending in the same by some person attending court. The statements that have been sent out amount to a good deal more than a thousand dollars and surely there ought to be a liberal response to the same. A newspaper is necessarily dependent in a large measure upon its subscriptions for its support and every subscriber should see to it that his dues to his paper are kept paid up.

A reasonable amount of food thoroughly digested and properly assimilated will always increase the strength. If your stomach is a "little off," Kodol Dyspepsia Cure will digest what you eat and enable the digestive organs to assimilate and transform all foods into tissue-building blood. Kodol relieves Sour Stomach, Belching, Heart-Burn, and all forms of Indigestion. Palatable and strengthening. Sold by all dealers.

### Dairy Industry.

Mr. A. F. Lever has introduced in the House of Representatives a bill, which was referred to the committee on agriculture, to further promote the dairy industry of the United States, and that the sum of twenty thousand dollars, or so much as may be necessary, be, and the same is hereby, appropriated, out of any money in the treasury not otherwise appropriated, to enable the Secretary of Agriculture to further promote the dairy industry of the United States, and that the Secretary of Agriculture be authorized to expend this sum, through the dairy division of the Department of Agriculture, in co-operation with individual dairymen and State experiment stations in such States as in his discretion is most needed such help.

### A Card.

This is to certify that all druggists are authorized to refuse your money if Foley's Honey and Tar fails to cure your cough or cold. It stops the cough, heals the lungs and prevents serious results from a cold. Cures the gripe cough and prevents pneumonia and consumption. Contains no opiates. The genuine is in a yellow package. Refuse substitutes. Sold by McMaster Co.

John D. Rockefeller has dumped another installment of tainted money on the Chicago university. See market page in a day or two for revised price list on oil. —Portland Oregonian.

"I notice after you left the house this morning you went back again. Don't you know that's unlucky?"

"Well, it would have been a good deal more unlucky for me if I hadn't gone back. My wife called me."

"Art thou in misery, brother? Then I pray be comforted. Thy grief shall pass away. Art thou excited? Ah, be not too gay. Temper thy joy, this too, shall pass away."—Paul H. Hayne.

"Is this pure milk?" said the inquisitive lady customer.

"Yes," replied the milkman.

"We sell the cream separately."

### The Yellow Fever Germ

has recently been discovered. It bears a close resemblance to the malaria germ. To free the system from disease germs, the most effective remedy is Dr. King's New Life Pills. Guaranteed to cure all diseases due to malaria poison and constipation. 25c at McMaster Co.'s, and Jno. H. McMaster & Co.'s, drug stores.

He--Why don't they cultivate their brains? She--They don't need to. Women's brains are all right as they are!—Detroit Free Press.

"This," remarked Mr. Sapphead, "is my photograph with my two French poodles. You recognize 'em, eh?"

"I think so," said Miss Stifric. "You are the one with the hat on, are you not?"—Houston Chronicle.

Woman is a miracle of divine contradiction.

Charity for revenue is a dead loss.

### Varied Manufacturing Enterprises.

South Carolina stood second among Southern States few years ago in the number of her oil mills. This position we imagine has not been lost since the development of new mills has been constant. Texas alone was ahead of us in this line three years ago. In other words, when area and population is considered, this State is far ahead of all other parts of the South in the development of the oil as well as cotton industry. South Carolina is hard to beat in anything she undertakes. But the time apparently has arrived when diversified manufacturing should be preached as assiduously as diversified farming was preached some years ago. We do not so much need more oil and cotton mills, as we need more manufacturing enterprises of varied kinds. There is big room for development in many lines other than those in which our people are already engaged.—Anderson Intelligencer.

### The Lion's Share.

"That is a quibble, a mere quibble," said Walte Camp, Yale's athletic adviser, in a discussion of football rules, according to the Kansas City Journal. He laughed ironically.

"That reminds me," he said, "of the children of a friend of mine whom I visited in the summer."

"Those children, two boys, got on none too well."

"Here," said their mother to the oldest of them one day, "here is a banana; divide it with your little brother, and see that he gets the lion's share."

"Mamma," he shrieked, "John hasn't given me any banana."

"What's this?" said the mother, hurrying in.

"It's all right," exclaimed the older boy. "Lions don't eat bananas."

### Not Surprising.

Mamma—I'm surprised at you, Johnny. Johnny (thoughtfully)—I wonder if you'll ever get used to me, mamma. You're always surprised at me.

Putting pleasure first is a sure way of postponing it.

A newly married man gets back to his lodge by degrees.

There can be no reverence where there is no respect.

It is better to go forward slowly than to go round ever so fast.

A good many are trying to wash out the slime with teardrops.

### Money to Loan.

I have made arrangements to negotiate loans on first mortgage of real estate in this county in sums of not less than \$500 and payable in not less than five years. The rate of interest is eight per cent on sums under \$1,000 and seven per cent on sums of that amount or over. No commissions are charged. The borrower pays for abstract and expenses.

J. E. McDONALD, Attorney.

10-11-6m

## Open to Conviction?

Of course you are, and if you will come here you will be convinced that there is no better place in Fairfield county for you to supply ALL YOUR FURNITURE WANTS than right here.

A Most Varied Stock and all at Reasonable Prices

### Repair Work---

is a specialty with us and given our very best attention. All work satisfactory and promptly attended to.

### Undertaking---

A full supply of Coffins and Caskets always in stock, and all orders given prompt attention.

R. W. Phillips.

## Busy Time This

On the farm. All preparations making for the planting of the crop. The needed Ploughs and Gears--in fact everything in the way of farm supplies--to be had here. Supplying your wants in this line a specialty with us.

Don't forget that I carry a big stock of Groceries and can always save you money on these necessities.

Plantation Shoes bought before the rise and will be sold at a lower price than they can now be bought wholesale.

A. B. Cathcart.

## Filling up==

I am rapidly filling up my stock and am now prepared to supply your wants in the way of Wedding and Birthday Presents.

Big lot of Fine Chinaware and Cut Glass.

C. M. Chandler.

## FARMERS' BONE

Proved the Best Fertilizer  
By a Record of Twenty Years' Success

You are banking on experience when you fertilize with Farmers' Bone. No other fertilizer is so well balanced in the plant food supplied from sowing time to harvest. Don't take a substitute. Farmers' Bone has no equal for any kind of crop. It is the leading fertilizer of the South.

Works Freely in Any Drill

It has been proven by over twenty-one years of successive use that Fish and Animal matter is superior to any other known ammoniate for growing cotton. Farmers' Bone is the fertilizer.
